The New Orleans Picayuas, of Saturday, relates the week's influences as follows: "The week has been a rather quiet one in the spot trade, the demand being only fair, but holders have been stringent in their views and have advanced their rates. The failing off in port receipts has given more confidence to the short group advances. Total shipments have advanced their rates.

Total shipments from plantations for the week 89,123 bales, against 135,308 last week and 109,865 last year. Business in the future room has kept up well this week. The fluctuations from a day to day both ways have been sufficient to encourage operations. The falling off in the port receipts has encouraged the "bulls" and enabled them to resist all efforts to break the market."
